

2015

Please see below information concerning LiquiFix - The Next Generation of Green Lubricants:

- Only lubricant certified as Non-Toxic by the Scientific Certification Systems, SCS
- High Flash Point (275°F)
- Non-corrosive properties
- No components listed as carcinogens by NTP, IARC or OSHA (California's Proposition 65)
- Exceeds rigorous California specifications for Indoor Air Quality (Section 01350) Re: CA OEHHA Chronic Reference Exposure Limits for airborne pollutants (toxicants/carcinogens)
- Non-aerosol; No CO2 emissions; No electrical arc risk
- Safe on all materials of ferrous and non-ferrous elements
- Emits Zero VOC's (Volatile Organic Compounds)
- Lasts 2-3 times longer than leading lubricants. (Based on independent laboratory testing)
- Does NOT conduct static charge which attracts dust and other contaminants

Biodegradable Degreaser/Cleaner:

- Bio-based degreaser that effectively cleans a broad range of oily soils.
- Neutral pH with low toxicity
- Contains no ozone depleting compounds or harmful chlorinated solvents
- High Flash Point (220°F), Non-corrosive, and Non-conducting
- Non-corrosive properties
- Though non-aqueous, is miscible with water allowing it to be easily rinsed from surfaces
- Does NOT conduct static charge which attracts dust and other contaminants
